

Dear ASRSD Community,

Governor Baker held a press conference this evening and announced all schools in Massachusetts will be closed from March 17-April 7. Our closing begins tomorrow, March 16, 2020. There is no school for students tomorrow, Monday, March 16, 2020.

Please be assured we are working on providing materials and resources to students during this three week period. We will be communicating these resources to you in the next few days.

We understand how difficult this is for you and your children and we are going to do our best to support you in these coming days. Please do not hesitate to reach out to your child's teachers, principal, counselors, or any school personnel. We are here to support you.

The Governor wants students to stay home and not be in social gatherings over the next three weeks. Please read this article, "[Social Distancing: This is Not A Snow Day](#)". It provides guidance and suggestions on this extended school closure.

As always, I will keep you informed on any updates or changes as they occur. Please take care, and you and your children will remain in my daily thoughts and prayers.

Thank you,

Dr. Malone

Superintendent of Schools
